

## STATEMENT OF PURPOSE

### RS23821

This is the fiscal year 2016 appropriation to the Department of Health and Welfare for the divisions of Mental Health Services, Psychiatric Hospitalization, and Substance Abuse Treatment and Prevention. It appropriates \$48,970,900 from the General Fund, \$12,106,700 from dedicated funds, and \$26,929,500 from federal funds, for a total of \$88,007,100 and 673 FTP for the three divisions. The bill also contains eight sections of legislative intent language that includes three sections for department-wide efforts and five sections specific to Mental Health Services. Adjustments to all three divisions include increased appropriation for the change in benefit costs, reductions for statewide cost allocation, and an ongoing 3% merit-based increase in employee compensation for permanent employees to be distributed at the discretion of agency heads.

Mental Health Services includes the Adult Mental Health and Children's Mental Health programs. Enhancements to this division include: \$1,720,000 for a Behavioral Health Community Crisis Center to be located in North Idaho; a restoration of funding that was removed during the recession for services related to the Allumbaugh House, which is a partner with the state to meet the behavioral health needs of Idahoans in Southwest Idaho; and an additional 3.18 FTP. The bill includes intent language related to the location of the crisis center and states that the center will be located in Region 1 or Region 2.

Psychiatric Hospitalization includes the Community Hospitalization, State Hospital North (SHN), and State Hospital South (SHS) programs. Changes to this division include \$103,700 for inflationary adjustments; \$510,500 for various replacement items and alteration and repair projects at the state hospitals, which includes \$140,000 for SHS and \$370,500 for SHS; and endowment fund adjustments that reduce the reliance on the General Fund by \$649,800. The division was approved for five line items. The first is line item 4 that provides funding to the Community Hospitalization Program to account for the increased rates that the state will pay private hospitals that treat patients committed to the state until a bed is available at SHS or SHN. The second is line item 24 that provides funding for a nurse call system interface at SHS that will improve staff and patient safety. The third is line item 25 that provides SHS funding to upgrade its computer system for inventory management. The fourth is line item 26 that provides funding for a clinical notes template computer module for both SHN and SHS. This module will improve patient safety and billing processes. The final line item 32 adds 0.67 FTP to SHN.

Substance Abuse Prevention and Treatment included maintenance level adjustments for staff personnel costs.
